RE: Application for Consent to the Transfer of Control of Everest Midwest, LLC and its Domestic Section 214 Authorization from Seaport Associates III, LLC and Affiliated Funds to SureWest Communications

WC Docket No. 07-300

Dear Ms. Dortch:

At the request of FCC staff, this letter supplements the application, filed December 19, 2007, to transfer control of Everest Midwest, LLC ("Everest Midwest") from Seaport Associates III, LLC to SureWest Communications ("SureWest") with respect to the domestic Section 214 authorization that Everest Midwest holds.

- 1) Everest Broadband, Inc., and its indirect, wholly-owned subsidiary, Everest Midwest are organized under the laws of the State of Delaware.
- 2) The following are all and the only subsidiaries of SureWest Communications which provide telecommunications services:

- SureWest Telephone provides wireline incumbent and competitive local exchange services, and exchange access services, to customers in portions of Sacramento, Placer, El Dorado and Yolo Counties, California. SureWest Telephone also provides high-speed data and information services to customers in portions of Sacramento, Placer, El Dorado and Yolo Counties, California. SureWest Telephone also provides wireless Ethernet wide area network services to customers in portions of Sacramento County, California.
- SureWest Long Distance provides interexchange and international telecommunications services to customers in portions of Sacramento, Placer, El Dorado and Yolo Counties, California.
- SureWest TeleVideo provides wireline competitive local exchange services, and exchange access services, to customers in portions of Sacramento and Placer, Counties, California. SureWest TeleVideo also provides cable TV and high-speed data and information services to customers in portions of Sacramento and Placer Counties, California.

Marlene H. Dortch, Secretary

Page 2 of 2

- SureWest Wireless provides wireless PCS service to California customers in the Modesto, Sacramento, Stockton and Yuba City Markets (BTAs 303, 389, 434, and 485, Stations KNLG245, KNLH726, KNLH727, and KNLH728).

3) At this time, the operating service areas for wireline ILEC and CLEC operations of the subsidiaries of SureWest listed above do not overlap. However, it should be noted that SureWest TeleVideo is authorized by the California Public Utilities Commission to provide CLEC services in the entire state of California. The operating service area for SureWest Wireless's PCS service overlaps the wireline service areas for SureWest Telephone and SureWest TeleVideo.

Please direct any questions to the undersigned.

Respectfully submitted,

/s/
